

1.

- Open the link to the interview on your **laptop** or tablet
- **Please answer the questions with relation to the rollout and not general**
- If the interview surface should not open correctly, please try another browser

Welcome to the interview on:

Consumption of food

Participate

3.

- You will be presented with **three elements**
- Below some elements there is a brief description that is only for better understanding

Which element differs most from the other two?

**Knife**

Consists of blade and handle

**Fork**

Consists of a handle and several tines

**Spoon**

Consists of stem and bowl

Next step

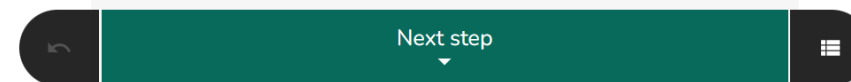

3.

- From the three elements, **choose the element that differs the most from the other two**

Which element differs most from the other two?

<b>Knife</b> Consists of blade and handle	<b>Fork</b> Consists of a handle and several tines	<b>Spoon</b> Consists of stem and bowl
--	---	---

# 4.

- Now formulate in your own words what distinguishes your selected element from the other two elements
- Please **keep your answer short** and limit yourself to a few words

## PROCEDURE AI-INTERVIEW

The screenshot displays the RoTec AI-Interview interface. At the top left is the RoTec logo (Rosenberger Technologies) and a 40% progress indicator. The main question is "Why does Spoon not match Knife and Fork?". Below the question is a text input field containing the answer "suitable for liquid food". A blue speech bubble with a female avatar icon says "Well done!". At the bottom, a green button labeled "Next step" is visible, with a back arrow on the left and a menu icon on the right.

5.

- In the next step, formulate the **opposite** of your previous description in your own words
- It can also be the **difference** from the other two elements to your selected one

The screenshot displays the RoTec AI-Interview interface. At the top left, the RoTec logo and 'Rosenberger Technologies' are visible, along with a 60% progress indicator. The main content area shows a question: 'What is the opposite of suitable for liquid food?'. Below the question is a text input field with the placeholder 'Enter your answer' and the user's response: 'facilitates the consumption of solid foods'. A confirmation message 'Well done!' is shown next to a female avatar. At the bottom, a green button labeled 'Next step' is visible, with a back arrow on the left and a menu icon on the right.

# 6.

- Both of your **formulations** **define the X and Y axes** of a graph
- All **9 elements** of the entire interview are gradually displayed to the left of the field
